Map Legend - Export/ Commodity	

# Exports/Commodities–Latin America

No one country has all of the resources necessary to operate independently and must depend on other countries for necessary resources and products. Use the CIA Fact Book resource - <https://www.cia.gov/the-world-factbook/countries/> to find the #1 export/commodity (first one listed) for each country below & write it underneath the State/country, colony or territory. Use the map legend to list the exports and designate a color, number or letter to represent each export. Then fill in the map showing the top export for each country.

- |                        |                                |                    |                 |
|------------------------|--------------------------------|--------------------|-----------------|
| 1. Grenada             | 2. Argentina                   | 3. Bahamas         | 4. Aruba        |
